5 Element

EARTH

We have personally chosen raw materials from around the world.

All of our products are equipped with the substances borrowed from the earth. That is why,

all of our products are extremely rich in their essence and are unique in their own remarkable way.

Water is the quintessence of life we breathe into our products.

The blend between the materials abstracted from earth and water makes the crux of our products.

WATER

AIR

Air works like the center force that pulls everything together while manufacturing our products.

It comes into picture because it is an essential that is used as a gas for a kiln to function properly.

It is at the core of producing best products ever made.

FIRE

The finest tiles go through the hottest fires. Fire is what gives our products the final touch.

A strong outburst of fire is the pillar of strength of our products.

It is a process which they undergo to stay out from possible future mishaps.

Thinking Big

The whole idea behind Boffo, was to think of the unimaginable. To be able to come with a thought process that is magnanimous enough to fascinate the enlarged thinking concepts of our customers. To live up to the expectation, of being both aesthetically pleasing as well as satisfying to the human eye.

Boffo takes ceramic tiles to a whole new level where the “natural” marble and its interpretation merge into a new, original form of absolute authenticity. Boffo is inspired by Italian artistic tradition, exploring new surfaces that are unique in their purity, color, and brightness. It gives one the feeling of something that is unique to their space, something that feels big.

Feeling Big

Living Big

With a full range of size available in 800x1600mm, Boffo makes it possible to employ the marble effect in any interior design on walls, floors, countertops, and to clad furnishings in stylistic continuity and with all the safety. Now, more than ever experience the notion of living big, luxuriously, and comfortably.

Beginning of something Big

Boffo, is taking the pure essence of nature, molded into an infinity of shapes and colors merely by the presence of Earth, Water, Air, and Fire. These creations are a part of our planet and each fragment has a soul of its own. Boffo has drawn inspiration from them to create an extensive range of slabs with a finish that is marvelous and exquisite. The process of thinking, feeling, and living big all wrapped up into the Beginning of something Big.
